

Intelligent and Easy Document Processing

Productive, Versatile and Intuitive Folder Inserter

The FI-75i combines unparalleled ease of use with advanced technology. With its compact footprint, large loading and unloading capabilities, and features like CIS scanning technology, the FI75i can process a wide variety of mailpieces for direct marketing campaigns, invoicing, monthly statements and many other applications. Easy to use via its full-colour touch screen and unique intuitive navigation, and extraordinarily quiet, the FI-75i fits perfectly into any work environment.

Versatile - Customize Your DS-75i to Your Needs

Offering several feeder configurations, it allows you to design and deliver attractive mailshots.

- Increase Productivity**
- High-capacity feeder
 - MaxiFeeder tray
 - High-capacity vertical stacker

- Process Invoices and Statements**
- 2 standard feeders
 - 1 MaxiFeeder tray
 - High-capacity vertical stacker

- Enhance Customer Communications**
- 1 daily mail feeder
 - 2 standard feeders
 - Side exit tray

Insert'n'Frank franking system integration	Optional
Document height	90-356 mm
Document width	130-230 mm
Document weight	60-250 gsm
Envelope length	90-162 mm
Set thickness	2.5 mm
Envelope width	160-248 mm
Tailor-made furniture	Optional
Mail Quality & Security	
Secure'n'Feed double detection	Yes
Accumulate before folding	Yes
Optical Character Recognition (OCR)	Yes
Tip to tip sealing	Yes
Barcode Reader (BCR) for 1D and 2D barcodes	Optional
Optical Mark Recognition (OMR)	Optional
Mail Production Output	Optional
Connectivity	
LAN embedded	Yes
Wi-Fi embedded	Yes
System Specification	
Standard configuration:	3 feeders with catch tray
Length x Height x Depth	1270 x 720 x 500 mm
Weight	79 Kg
Noise level	66 dB

1. Automated Stacker
The high-capacity vertical stacker holds up to 500 finished envelopes
2. Touch Screen Display
Full-colour 7" touch-screen enables navigation easily to create a new job or access existing jobs within seconds
3. CIS Scanner
The scanner can read any type of coding printed horizontally or vertically in the document

4. Document Feeders
Quickly process multiple page sets of up to 975 documents using the 3x325 standard feeders. All feeders can be used in cascading mode and have paper sensors which ensure the operator is constantly informed on how to proceed to run the system

A State-of-the-Art Graphical User Interface

Designed for all users, the intuitive, full-colour, high-resolution 7" touch-screen provides a wizard-based user-friendly interface, making it easy for anyone to select and run their folding and inserting jobs.

Alternatively, see how easy it is to create a new job using our exclusive load'n'go intuitive procedure. Simply load your documents and envelopes and then press the start button. The DS-75i will automatically measure the length of all loaded documents as well as the envelope in order to adjust all settings and process the appropriate mail items.

Smart Solutions to Maximize Flexibility

The exclusive FlexFeed® tray enables you to process any document size or type. In combination with the unique semi-automatic envelope separation mechanism, this provides full flexibility for feeding a wide variety of document types. You can use practically any size and type of material to address your prospective and current customers efficiently.

Optimise Productivity with the MaxiFeeder Tray

Choose to load the MaxiFeeder with up to 325 business reply envelopes or load up to 1,200 sheets to maximize your productivity.

Optional Features

Automate Your Document Processing with OMS-200 Software

Neopost's Output Management Software simplifies and automates your document creation process. So you can:

- Automatically add a barcode giving more value to your documents and guaranteeing your mail integrity with secure control marks
- Select inserts from multiple trays maximising your options
- Split your print file based on the number of pages

Monitor, Secure and Verify Your Mail Production Output with OMS-500 and AIMS-500 Software

Neopost offers you the assurance that your printed jobs are accurate, complete and have actually been mailed. Output Management Software (OMS-500) applies a unique Job and Mailpiece ID to every document. Each mailpiece is then reconciled real-time as it is inserted against a database using AIMS-500 technology. This provides you with real-time quality control and detailed reports:

- 100% verification of job completion
- Real time failure detection of missing mailpieces
- Reprint Loop for missing or failed mailpieces
- Reporting on individual jobs, performance and trends
