

FI-67iQ

Intelligent Folder Inserter

Send mail faster.

Intelligence by design

From document file to sealed envelope, every step is defined, verified and tracked. Automatically. No manual checks. No uncertainty.

The FI-67iQ is designed to work seamlessly with **optional** intelligence suite. secure barcode and docsecure integrate directly with the machine to deliver a fast, reliable and fully controlled mailing process.

- **secure barcode**

Set how every document is assembled before it reaches the machine. No manual sorting. Every recipient gets the right communication.

- **docsecure**

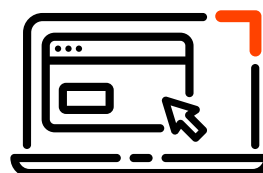

Check every mail piece in real time and generate a full audit trail. Mitigate risk. Meet compliance requirements.

- **NeoStats**

Track usage, performance and volumes in one dashboard. Stay in control and spot where you can do more with less.

- **Remote Assistance & Control**

Fix issues without stopping production. Expert support, accessible instantly, no engineer on-site needed.

Every document matched. Every time. With proof

The FI-67iQ's **optional** full-page CIS scanner reads 1D, 2D and QR barcodes anywhere on the page. No repositioning when you change jobs. Bundled secure barcode software generates intelligent barcodes that tell the machine exactly how to sort and assemble each mailing. The right documents reach the right recipient.

Your team. Up and running in minutes

The FI-67iQ was built for the people who use it every day or occasionally, not just the ones who set it up. The 7-inch capacitive touchscreen guides any operator through job setup, step by step, with no training needed. Once a job is configured, it's saved and recalled instantly. And when something unexpected happens, built-in remote diagnostics mean help is on hand straight away.

Eliminate setup time between jobs

Load your documents. The system handles the rest. Intelligent barcodes define how each document is assembled, with no manual setup or sorting. Jobs are saved to memory and recalled instantly. Switch between job types or envelope formats and automatic path cleansing clears the paper path for you.

Optional High-Capacity Vertical Stacker

Holds up to 325 finished envelopes in order, so operators move straight to the next job without stopping to clear the tray.

Touchscreen Display

7-inch capacitive color touchscreen with cover glass. Guided setup reduces training time.

Feeder Linking

No downtime during long runs. When one FlexFeed feeder runs low, another automatically takes over. You refill on the fly and the job never stops.

Envelope Hopper

150-envelope capacity with on-the-fly reloading. Keep feeding without breaking the run.

Automatic Collator

Collate and fold up to 8 pages in a single pass. Complex sets, simple process.

Control every mail piece

No manual checks. No sorting. No risk.

- The FI-67iQ doesn't just process mail. It controls it.
- Every document is matched, assembled and tracked automatically, with no manual input. (Optional)

Get started in seconds

- One guided setup. The touchscreen walks you through from job selection to sealed envelope.
- A single FlexFeed feeder handles straightforward jobs, simply and reliably.

Keep production running

- Cascading FlexFeed feeders take over automatically when one runs empty.
- Three different exit options are available to maximize productivity and keep your workspace clear.
- Your top 50 jobs saved and ready to recall in one touch.

Run complex mailings without adding manual steps

- Fold up to 8 pages crisply (V-fold), perfect for multi-page promotions.
- Load up to 1,200 inserts or 325 BREs with the optional MaxiFeeder. Fewer reloads, more done.

PERFORMANCE AT A GLANCE

Processing speed	Up to 2,500 env./hour
Folding capacity	Up to 8 sheets, V-fold
Multi-document feeding	Up to 10 documents per feeder
Monthly volume	Up to 20,000/month
7" Capacitive color touchscreen	Standard
FlexFeed® feeders	Standard
Cascade feeder linking	Standard
Daily Mail / Multi-page hand feeding	Standard
High-capacity vertical stacker	Up to 325 envelopes - Optional
Double document detection	Standard
Automatic settings	Standard
Automatic path cleansing	Standard
Full-page CIS document scanner	Optional
secure barcode (bundled with CIS)	Optional
docsecure	Optional
Wireless / LAN enabled	Standard
Remote diagnostics / assistance	Standard
NeoStats usage analytics	Standard
Job memory	Registered job library
Fold types	Letter, Z-fold, single, double parallel, no fold
Envelope feeder capacity	150
Document feeder capacity	325
Short tray feeder capacity	Up to 50 BRE / 325 inserts
MaxiFeeder capacity	Up to 325 BRE / 1,200 inserts
Accumulate before folding	Up to 8 documents
Catch tray	Up to 100 envelopes - Optional
Side exit (RH or LH)	Up to 225 envelopes - Optional
Noise level	64 to 67.8 dBA
Document height	90 to 356 mm
Document width	130 to 230 mm
Envelope height	90 to 162 mm
Envelope width	160 to 248 mm
Maximum insert thickness	1 mm
Maximum set thickness	2 mm

**Revenue Growth**

Maximize opportunities to better communicate with customers.

**Risk Mitigation**

Ensure that every recipient receives the right mailpiece.

**Customer Engagement**

Create your own professional-looking mailpieces.

**Expense Control**

Maximize productivity thanks to ease of use and speed.

Your documents. Any format. No manual tasks.

The FI-67iQ's FlexFeed function processes most document formats: inserts, standard documents, and business reply envelopes, without reconfiguration. The Daily Mail function even operates hand-fed multi-page stapled sets for ad-hoc jobs. Whatever lands on the desk, the FI-67iQ can process it.

Load the job. Walk away. Come back to finished mail.

Load the feeders and the FI-67iQ takes care of everything: assembling, folding, inserting and sealing in one smooth, uninterrupted process. Stop clearing the paper path between jobs. The **optional** high-capacity vertical stacker keeps finished envelopes accessible and ordered throughout.

When it comes to print finishing solutions, Galaxy Print Finishing is the partner you can trust. From high-quality products to expert guidance and support, we are here to meet your print finishing needs and help you achieve outstanding results. Contact us today to discover how our innovative solutions can transform your printed materials into professional masterpieces. Let Galaxy Print Finishing be your go-to destination for all your print finishing requirements.
