Product characteristics

Booklet maker for the professional completion of up to 800 sets of booklets per hour. Your documents are automatically folded and/or stapled in a few seconds. Perfect for offices, small businesses, schools, colleges, copy shops, print shops... Suitable for paper formats up to A3 plus. The clear control panel shows the work progress and various settings as well as error codes that indicate e.g. paper jams or that the staple magazine is empty. This makes it easy to recognize and solve problems. Three digit addition/subtraction digital counter with LED display. The stapling and folding position is automatically adjusted to the selected paper size. Direct button for standard paper formats A5, A4, A3, B5 and B4. Additionally, any paper length can be programmed freely to a millimetre accuracy via the "FREE" button with the help of "+" and "-". In automatic mode, the sensor detects fed sheets and folds or staples automatically. In manual mode, the sheets are folded and stapled as soon as the START button is pressed. Three modes are available: Staple only / Fold only / Staple & Fold. Included in the scope of delivery are one box of 5000 staples and a practical foldable delivery tray for the finished brochures.
