SHIPPING

This best-in-class powerhouse shipping application allows you to process parcels through Royal Mail quickly and easily. All parcels also receive a free confirmation of delivery from Royal Mail.

- Print discounted postage and seal envelopes at **up to 175 letters per minute**.
- Large descriptive buttons and prompts make navigation a breeze.
- The **Rate Wizard** simplifies the process of selecting the correct postal rate and class. With clear step-by-step instructions, the selection process has never been easier.

ACCOUNTING

S.M.A.R.T. provides users the ability to set up specific accounts, allowing for greater level of reporting granularity.

- Postal account reporting tracks spending, providing the tools you need to stay on top of expenses.
- **Chargeback accounting** lets you bill vendors, customers or departments for mailing/shipping costs and allows you to recoup postage costs that would otherwise slip through the cracks.
- Supports: **Budgets, handling charges and surcharges**, as well as an **unlimited** number of **accounts** or **departments**.

REPORTING

Easily produce informative reports and colour graphs that give you the details you need.

- Generate postage expense reports by: mail class, weight break, presort, ascending and descending register values, account/department, operator, cost centre, pre-defined or custom time periods – and more!
- Set it and forget it – S.M.A.R.T.'s **report scheduler** automatically runs and emails reports to a designated recipient or group based upon user-defined parameters
